BEAR®

Who We Are

A STRONG FOUNDATION

The Cartek Group and its predecessors have been setting the standard in automotive alignment equipment for over 90 years. Starting with the toe – in gauge, a basic metal device, to the advent of the Multi–Tek showcased in this catalog, we strive to be on the cutting edge of service equipment technology. Passion for innovation building a heritage of excellence.

WORLDWIDE DISTRIBUTION

Being a leading force in the automotive diagnostic area, our sales distribution network has no boundaries. We have customers throughout the world and our international network is growing every day.

SERVICE AND CUSTOMER CARE

Cartek's technical and customer service team is like no other. We are dedicated to quickly and efficiently handle all your needs from equipment purchase – to service and support required down the road.

We are always ready to provide world–class support.

MI-TEK

MI-TEK ALIGNER

Control the entire alignment from the cabinet or from our patented wrist aligner.

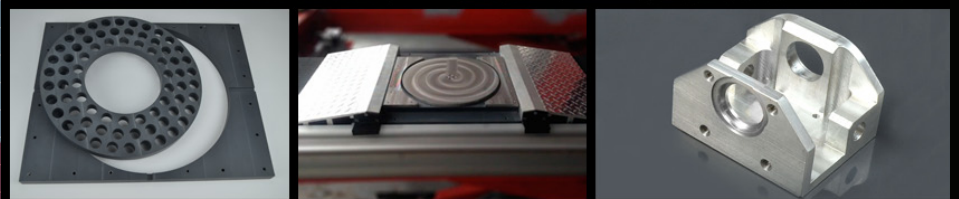

- *Sturdy all-aluminum cabinet*
- *Straight arm wheel units for cars and light trucks*
- *8-Sensor 2.4Ghz Wireless operation*
- *Windows 10 PC with 32" 1920x1080 LED display*
- *Self-Centering Rim Clamps with 24" rim diameter clamping capacity*
- *MI-TEK Wrist aligner (optional)*

The MI-TEK portable device serves as a remote display allowing the user to conveniently view alignment values in real time while making adjustments under the vehicle.

**CARTEK
ALIGNMENT
